## OLD WISDOM

It will seem so easy, when I look back some day,  
All the things I should not do, all I leave undone;  
"Why, it was so simple, was so foolish," I shall say,  
"A silence here at morning, a swift word at set of sun!"

It will be so clear then, when I recall and see  
The far years, the past years, unchanging then as stone,  
All I build or shatter now, all that baffles me:  
Saying: "But this thing was plain; but that I should  
have known!"

I shall mock her blindness then, under sunset skies,  
The foolish girl who gropes today in morning sun and storm....  
O far-off woman I shall be done with life and wise—  
Give me of your wisdom now, while life is wild and warm!

—Margaret Widemer in Good Housekeeping.

"There must be some mistake in my examination marking. I don't think I deserve an absolute zero," complained the student.  
"Neither do I," agreed the professor, "but it's the lowest mark I'm allowed to give."—Sports Moments.

"Invincibility liquor encourages every kind of vice."  
"It does," assented Bill Borieton. "The meanest professor I ever heard of in a bootlegger."—Washington Star.

## THE NATIONAL PARK-TO-PARK HIGHWAY

Denver, Col., Nov. 11.—The initial convention of the National Park-to-Park Highway association, with nearly 100 delegates in attendance, opened here today with a program calling for congressional aid for the twelve most westerly states in raising \$100,000,000 for hard-surfacing the 5,400 miles of dirt roads that serve as connecting links to form the National Park-to-Park highway. The convention will last three days.

Stephen T. Mather, director of the national park service, officials of the American Automobile association, the Rotarians, Optimists and other western organizations are participating. The National Park-to-Park Highway association will be put on a permanent organization basis, and state and local branches formed in twelve states and 100 cities of the west. Congress will be memorialized to make this a federal highway, roughly circling nine western states, Colorado, Wyoming, Montana, Idaho, Washington, Oregon, California, Arizona and New Mexico, and connecting eleven national parks.

Representatives of the governors of these states, as well as Utah, Nevada and Texas, are attending the conference, which marks the close of the official tour dedicating a new American motorway, with the start and finish in Denver. The trip required seventy-six days, noon and night meetings being held in towns on the route to arouse the west to a greater appreciation of its scenic, industrial and agricultural possibilities.

The wonder highway in the form of a larial loop embraces an area greater than continental Europe, touching in the course of its scenic running noose, Mesa Verde, Rocky Mountain, Yellowstone, Glacier, Mount Rainier, Crater Lake, Lassen, Yosemite, Sequoia, General Grant and Grand Canyon national parks. A branch road will some day connect Zion National park in Utah, with the Great Salt Lake, Spokane, Astoria, Tacoma, Portland, San Francisco, Los Angeles and Denver are on the route.
